July 15, 2015 Non-Regulatory
Guidance

MAINTENANCE OF EFFORT

Effective July 1, 2015

Non-Regulatory Guidance

Eligibility Standard (Budget)

- The eligibility standard in 300.203(a) requires that, in order to find an LEA eligible for an IDEA Part B subgrant for the upcoming fiscal year, the State must determine that the LEA has budgeted for the education of children with disabilities at least the same amount of local or State and local funds, as it actually spent for the education of children with disabilities during the most recent fiscal year for which information is available.

Compliance Standard (AFR)

- The compliance standard in 300.203(b) prohibits an LEA from reducing the level of expenditures for the education of children with disabilities made by the LEA from local, or State and local, funds below the level of those expenditures from the same source for the preceding fiscal year. In other words, an LEA must maintain (or increase) the amount of local, or State and local, funds it spends for the education of children with disabilities when compared to the preceding fiscal year.

Effective July 1, 2015

Non-Regulatory Guidance

There are four methods an LEA may use to meet the eligibility and compliance standards.

- Local funds only
 - Combination of State and local funds
 - Local funds only on a per capita basis
 - Combination of State and local funds on a per capita basis
- This information is entered by districts when completing the 2015-16 AFR MOE data in MySPED.
 - Districts should complete the AFR MOE database in MySPED before October 1 for the AFR 2015-16 year.
 - October 15th , a separate 2016-17 AFR MOE worksheet will be opened in MySPED for districts to utilize for exceptions to the Maintenance of Effort for the current year.

Effective July 1, 2015

Non-Regulatory Guidance

Exceptions and Adjustment

Under 304.204 there are five instances where an LEA may reduce the level of expenditures:

- A **voluntary departure**, by retirement or otherwise, or departure for just cause, of special education or related services personnel (a transfer to other positions, is **not** allowable)
- A **decrease in the enrollment of children with disabilities**
- The **termination of the obligation** of the agency, consistent with IDEA Part B, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the State, because the child—
 - Has left the jurisdiction of the agency
 - Has reached the age at which the obligation of the agency to provide FAPE to the child has terminated
 - No longer needs the program of special education

Effective July 1, 2015

Non-Regulatory Guidance

Exceptions and Adjustment

- The **termination of costly expenditures for long-term purchases**, such as the acquisition of equipment or the construction of school facilities
- The **assumption of cost by the high cost fund** operated by the SEA under 300.704(c).

Effective July 1, 2015

Non-Regulatory Guidance

Exceptions and Adjustment

If an LEA **properly** takes the exceptions or adjustment to reduce the level of local, or State and local, expenditures otherwise required in a fiscal year, the LEA would be required in subsequent fiscal years to maintain effort at the reduced level— except to the extent that the LEA increases the actual level of expenditures above the required level of expenditures for that fiscal year (page 20).

Effective July 1, 2015

Non-Regulatory Guidance

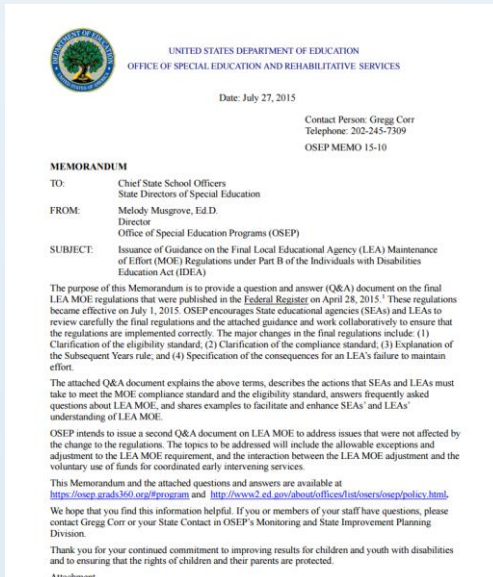

Consequences of LEA MOE Failure

If an LEA fails to meet the MOE compliance standard, the SEA is liable in a recovery action under section 452 of GEPA (20 U.S.C. 1234a) to return to the Department, using non-federal funds, an amount equal to the amount by which the LEA failed to maintain its level of expenditures in that fiscal year or the amount of the LEA's IDEA Part B subgrant in that fiscal year, whichever is lower (page 21).

Effective July 1, 2015 Non-Regulatory Guidance

The July 1, 2015 Non-Regulatory Guidance is available at the following link.

Private School Proportionate Share

October 1, 2016

Private School Proportionate Share

- The Private School Proportionate Share should be calculated for the 2016-17 using the amounts for Private and Home Schooled students reported on the 2016 Private School Survey (Question #4 plus question #5).
- A worksheet for calculating current year PSPS is available in Part I of the June School Age Application, page 8, in Indistar/ACSIP. Be sure to consider the carryover amount from the previous year .
- The calculation on the June 1 Application will **not** be the amount needed for the October 1 amendment.
- There are 4 allowable **function codes** for use with PSPS: **1218, 1228, 2158, 2168**.
- **Program codes** for PSPS are **266** for Carryover and **268** for Current year.
- The amount in PSPS program code 268 for 2015-16 that was not spent must be carried over in 2016-17 in **program code 266**.
- The amount of the **2015-16 Additional Reserve** should be considered for PSPS and be budgeted in **carryover program code 266**.

Private School Proportionate Share and the 15-16 Additional Reserve

- The **2015-16 Additional Reserve** amount announced in the August Commissioner's Memo will need to be calculated for Private/Home School and budgeted in the **carryover program code 266**.

PSPS Set a Side

- ❑ 2015-16 Additional Reserve (Program code 266)
- ❑ Unspent PSPS funds from previous year (Program code 266)
- ❑ 2016-17 Allocation set-a-side for PSPS (Program code 268)

Updating PSPS to Final Allocation Amounts

- In March, when **Final Allocations** are announced by Commissioner's Memo, the Final amount for VIB allocation and the **15-16 Additional Reserve final amount** will need to be considered for PSPS recalculation and budgets amended.

Private School Proportionate Share

Please pull a COGNOS PSPS budget report to check for accuracy of program codes **before** the October 1 submission and when amending.

Excess Cost

Excess Cost

Under Section 300.202 of IDEA regulations except as otherwise provided, amounts provided to an LEA under Part B of the Act may be used only to pay the excess costs of providing special education and related services to children with disabilities.

Districts should consider their Excess Cost requirement when developing annual budgets, along with MOE Status, Private School Proportionate Share Set Aside and Coordinated Early Intervening Services. All four of these additional fiscal requirements impact a district's use of its Part B funds.

Excess Cost

Excess costs are those costs for the education of an elementary school or secondary school student with a disability that are in excess of the average annual per student expenditure in an LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate.

An LEA must spend at least the average annual per student expenditure on the education of an elementary school or secondary school child with a disability before funds under Part B of the Act are used to pay the excess cost of providing special education and related services.

Excess Cost

Excess Cost should be calculated annually and kept onsite for monitoring purposes.

The Excess Cost worksheet and User Guide will be available on the web after December 1, 2016. The December 1, 2016 Child Count will be used in the calculation for the 2016-17 Excess Cost.
